eGRID 2025

10th IEEE WORKSHOP ON THE ELECTRONIC GRID

Glasgow, Scotland   **30th September to 2nd October 2025**

The 10th IEEE Workshop on the Electronic Grid (eGRID 2025) will be held from 30th September to 2nd October 2025 in Glasgow, Scotland, United Kingdom.

This international workshop, sponsored by the IEEE Power Electronics Society (PELS) and technically sponsored by the IEEE Power and Energy Society (PES), and organised by the University of Strathclyde, Glasgow, will provide an international forum for academics and industry to exchange information on their latest research ideas, developments, experiences, achievements, state-of-the-art technical trends, and applications. The workshop invites experts in power electronics and power systems to discuss the evolution of the electric system towards a more power electronics-based infrastructure.

The eGRID 2025 Workshop is a single-track format, inviting experts from industry, academia, and international labs to engage in plenary speeches, tutorials, and panels on the latest insights on theory, modelling, analysis, design and development, testing, and integration of power electronics-based power systems.

2025 track topics include:
- Power grid of the future
- Power electronics control, testing, and modelling
- Robust and resilient electrical grids

▶ CALL FOR PAPERS

Submitters of papers will have opportunities to present their work, orally or in poster format, and to interact with industrial experts on the challenges and solutions for the future energy systems.

Important Dates for Paper Submission
1st March 2025 — Opening submission system
1st Apr 2025 —Submission of extended digests
15th Jun 2025 — Notification of acceptance
1st Aug 2025 — Submission of final manuscript

▶ SPONSORSHIP OPPORTUNITIES

Sponsors of the 2025 IEEE eGRID Workshop can participate at one of three different levels of contribution, with benefits including:

- Workshop registrations
- Exhibit table for company promotion
- Logo on eGRID website
- Logo presence on-screen and throughout the Workshop
- On-stage presentation opportunity
